

Business Questionnaire

Sibley County / Fairfax is interested in learning more about the needs that businesses have for broadband services and the role the governments might take to encourage expanded broadband service in the area.

We want feedback from businesses about how you use broadband today and how you might use broadband in the future. Please take a moment to complete this questionnaire and return to the address below by August 27th, 2010 or send it by email to: HYPERLINK "mailto:markerickson@mchsi.com" markerickson@mchsi.com.

Company:

Location / Closest Town:

Zip Code:

Number of Employees:

Type of Business:

How do you use the Internet today? (example: Communication with customers, vendors, other offices; automated processes; telecommunicating; online services; voice over IP; data backup; etc.)

Describe your Internet access today. Who do you buy Internet access from?
How much bandwidth do you have and how much do you pay for it?

How would your business use broadband if you could buy all the bandwidth you want at a price you could afford?

Would you support the idea of local government facilitating an alternative Broadband solution?

How could you increase productivity with additional broadband capacity?

Do you have other comments or suggestions regarding expanding broadband services in the area?

Please return completed survey to:
